SUBJECT:
Acceptance of Tungum Alloy for Marine Applications

Dear Sean

Thank you, for your fax dated 10.December 2002.

Considering previous information presented concerning the properties of TUNGUM TCL100 (BS 2871 CZ 127 WP), we would have no objection to it's use for approved marine applications, provided that, where required by the Rules, it was manufactured by an Approved Manufacturer and certified by a Lloyd's Register Surveyor.

This would apply to Class I and II pressure systems as defined by the relevant sections of Lloyd's Register Rules.

Never we have no such requirement for Class III piping systems.

John Coupland
Senior Surveyor
